

Percentage of African American Architects in each of the Fifty States & USVI
Based on NCARB's 2008 Survey of Registered Architects

3/09

The 2008 survey of state architectural registration boards by the National Council of Architectural Registration Boards indicates that there are currently 104,126 registered architects in the United States, the US Virgin Islands, Puerto Rico, and Guam.

Our research indicates that there are currently 1,677* registered African American Architects. This means that 1.61% of registered architects are African American. The state by state breakdown below shows the number of resident architects in each state and the number of resident African American architects. The last column illustrates those who are non-residents.

In some cases notably the District of Columbia area (MD & DC) and the New York City area (NJ), a number of registrants worked in one jurisdiction but lived in the neighboring jurisdiction. In our study we considered them as residents.

In addition we acknowledge that the NCARB list only includes registrations that are current. Our listing does NOT determine whether a registration is current or not.

<u>STATE</u>	<u># of Resident Arch.</u>	<u># of Resident Black Arch.</u>	<u>Percent Black Arch. Living In-State*</u>	<u>Black Architects Living out-of-state</u>
Alabama	791	24	3.0%	2
